

I am

Applicant
for loan

I'm trying to

Get approval
for loan

But

Taking huge amount of
time for approval of
loan and i am not able
to visit bank frequently

Because

The process of
analyzing my history
and some verification
process takes time.

Which makes me feel

An application that makes me to
apply for loan remotely. The
application should also help in
predicting the loan approval
quickly to reduce time and risk

miro
